School Installment Payment Option:

1. The combined total of the three installment payments equals the face amount of the tax bill.
2. The 1st installment must be received or postmarked by 8/31 in order to enroll in the installment program. After the 1st installment is received, you are required to pay in installments and cannot receive the discount.
3. Installment due dates are 8/31, 10/31, and 12/15. If the second or third installment is paid late, the late fee is applied to that installment. The second installment must be paid before paying the third installment.
